PROFESSIONAL SUMMARY

Supply chain and procurement professional with 9+ years of experience, combining deep operational domain expertise with hands-on data analytics capability — a rare and valuable combination. Currently manage supply chain analytics for Chevron (Oil & Gas) across EMEA, NA, LATAM, and APAC regions at GEP Worldwide; previously supported Google's EMEA supply chain operations at Accenture. Skilled in building Power BI dashboards, writing SQL queries, and applying Python for data analysis on real procurement and supply chain datasets. Completed Data Science certification in 2025, building on a BSc foundation in Computer Science, Mathematics, and Statistics. Proven track record in P2P operations, demand and inventory analytics, KPI reporting, spend analysis, data validation, and stakeholder communication for Fortune 500 clients across multiple geographies and time zones.

CORE SKILLS

Supply Chain & Procurement: P2P Operations, Purchase Order Management, Demand Forecasting, Inventory Planning & Optimisation, S&OP Support, Supplier Management & Evaluation, RFQ/RFP, Vendor Negotiation, Spend Analysis

Analytics & Reporting: Power BI, SQL (Joins, Aggregations, CTEs), Python (Pandas, NumPy), Excel (Advanced — Pivot Tables, VLOOKUP, Macros), KPI Dashboards, MIS Reporting, Forecast Accuracy Tracking, Variance & Root Cause Analysis

Machine Learning: Regression, Classification, Time Series Forecasting (ARIMA, Prophet), Random Forest, XGBoost, EDA, Statistical Analysis

Tools & Platforms: GEP SMART, SAP (procurement document integration, interface troubleshooting, ERP coordination), Jira, ServiceNow, Salesforce (SFDC), Microsoft Azure (Fundamentals)

Soft Skills: Cross-functional & Multicultural Collaboration, Stakeholder Management, Process Documentation, Mentoring & Training, Executive Reporting

PROFESSIONAL EXPERIENCE

Senior Analyst — Supply Chain Analytics | GEP Worldwide, Mumbai

Sep 2021 – Present

- Managed supply chain and procurement data for Chevron across NA, LATAM, EMEA, and APAC regions; tracked 1,000+ purchase orders and 800+ shipments, ensuring demand-supply alignment, timely delivery, and SLA adherence
- Managed SAP-to-GEP SMART document integration workflows; troubleshooted interface failures between SAP ERP and procurement platform across buyer and supplier document postings (Amalto, PIDX), coordinating with ERP and engineering teams to resolve document status issues
- Built and maintained 50+ Power BI dashboards and MIS reports tracking procurement KPIs, inventory levels, supplier performance, and spend trends; improved data accuracy by 30% through SQL-based validation and master data governance
- Performed spend analysis and root cause analysis using SQL and Excel; identified 50+ process inefficiencies and translated findings into actionable cost-saving and efficiency recommendations for senior stakeholders
- Collaborated with procurement, finance, logistics, and IT teams across four regions to align planning decisions, resolve data discrepancies, and support audit readiness
- Automated recurring reporting workflows using Power BI and Excel macros, significantly reducing manual processing time and improving reporting turnaround for stakeholder deliverables
- Served as Subject Matter Expert (SME) for procurement processes and analytics tools; created process documentation and trained 20+ team members; received multiple client appreciation awards

Senior Procurement Operations Associate | Accenture Solutions Pvt. Ltd., Mumbai

Jan 2019 – Sep 2021

- Supported demand and supply chain planning for Google's EMEA operations; developed replenishment plans using statistical analysis of historical sales data, market trends, and seasonal patterns
- Tracked and analyzed supply chain KPIs including forecast accuracy, demand variability, inventory levels, and backorders; conducted data audits using Excel and SQL to ensure reporting accuracy and compliance
- Generated tailored stakeholder reports and procurement strategy insights; collaborated with cross-functional, multicultural teams to translate data into actionable business recommendations
- Resolved order conflicts, blocked orders, and supply exceptions through data-driven root cause analysis, minimising business impact and maintaining service levels

Fulfilment Executive | Bizongo Smartpaddle Technology Pvt. Ltd., Mumbai

Aug 2018 – Dec 2018

- Tracked vendor and procurement data using Excel; reduced cost inefficiency by 15% through data-backed supplier performance analysis and strategic sourcing decisions
- Monitored order fulfilment and supplier performance metrics; generated procurement efficiency and delivery timeline reports for management review

- Analyzed supplier and RFQ data to drive competitive procurement decisions; improved supplier reliability by 20%, increased competitive bidding by 25%, and reduced average procurement costs by 10%
- Created client performance reports and procurement dashboards using Excel; awarded Best Performer of the Month & Quarter for analytical rigor and service quality

Earlier Roles: Computer Operator — Vision Solutions (2015–2016) | Desktop Engineer — Pinnacle InfoTech (2014–2015)

PROJECTS

IPL Cricket Performance Dashboard (2008–2023)

- End-to-end pipeline using Python, SQL, and Power BI; engineered batting & bowling metrics from 243K+ deliveries, wrote 8 business queries, and delivered a 5-page interactive dashboard covering player, team, and venue insights

Sales Forecasting — Time Series Analysis

- Forecasted sales using ARIMA and Prophet models with trend and seasonality decomposition, developed for an inventory and demand planning use case

Customer Churn Prediction

- Classification model with class imbalance handling; evaluated on accuracy, precision, recall, ROC-AUC; delivered actionable retention recommendations

Earthquake Damage Prediction — Rubixe Internship

- Built a large-scale structural damage classification model using ML; published on Kaggle with full documentation

Power BI Dashboard Portfolio

- Built interactive dashboards: Credit Card Finance Analytics, E-commerce Sales Performance, and HR Analytics

Full project portfolio: github.com/Prithviraj108 | kaggle.com/prithvirajshukla

KEY ACHIEVEMENTS

- Managed Chevron's global supply chain portfolio across NA, LATAM, EMEA, and APAC — 1,000+ POs and 800+ shipments annually
- Improved procurement data accuracy by 30% through structured validation and master data governance at GEP Worldwide
- Reduced cost inefficiency by 15% at Bizongo and procurement costs by 10% at ICLP through data-driven supplier analysis
- Recognised as Subject Matter Expert (SME); trained and mentored 20+ team members across procurement and analytics processes

EDUCATION

Post Graduate Diploma in Supply Chain Management Narsee Monjee Institute of Management Studies (NMIMS), Mumbai	2020
Bachelor of Science – Computer Science (Mathematics & Statistics) P.C. Jabin Science College, Hubballi	2014

CERTIFICATIONS

- Using Generative AI in Supply Chains — LinkedIn Learning (2026)
- Getting Started with Microsoft Azure — LinkedIn Learning (2026)
- Advanced Prompt Engineering Techniques — LinkedIn Learning (2026)
- Certified Data Scientist (CDS) — Datamites (2025)
- Data Science & Analytics Internship — Rubixe (2024–2025)
- Power BI: Dashboards for Beginners — LinkedIn Learning (Nov 2024)
- Advanced Certificate in Logistics and Supply Chain (ASLSC) — Export Trade & Training Institute
- Certified Cloud Professional — IIHT
